SKILLS

I'm a passionate developer who enjoys solving big problems; the harder it gets, the more interested I become in solving it.

The technologies I have worked with:

- Java, Spring Boot, Maven, Angular+2, Angular JS, Stripe, Tailwind, React, RxJS, Kotlin, MongoDB, PostgreSQL
- CI/CD (Continuous Integration/Continuous Delivery), Gitflow, Git
- API RESTful, SOLID, Clean Code, Microservices Architecture
- Agile Practices (Scrum / Kanban)

EXPERIENCE

BTG Pactual - *Software Engineer*

03/2022 - PRESENT

- Maintenance and management the Front-end of an investment platform (Content BTG).
- CI/CD process using Jenkins and Gitflow.
- Work on microservices in the Back-end with Java and Spring Boot
- Provide assistance to various internal teams and educational platforms.

Destec - *Full-Stack Engineer and Co Founder.*

01/2019 - 08/2021

- Build marketing and consulting platforms in Angular and Vuejs.
- Had experience working with Google and Meta APIs.
- Have dealt with 2 big clients and gained experience with being as Java developer.

CERTIFICATIONS
