Work Experience

Software Engineer @ BTG Pactual | Credit IT

Mar.22-Today

- Played a major role in BTG's internal credit system, which manages Corporate and SME (Small and Medium Enterprises) credit operations.
- In **2024**, the system processed over **USD 37 billion** in revenue, supporting critical credit operations.
- Led the development and maintenance of features tailored specifically for **SME** clients, improving loan application efficiency and automation.
- The system handles over **44 million messages**, managing **calculations for debts, payment processing**, and inter-team communications.
- Worked on real-time financial event processing, ensuring seamless integration with external banking services and internal **risk analysis** teams.
- Contributed to the development of **Bankers**, BTG's internal learning management system (LMS), a platform similar to Coursera, providing educational resources to advisors and employees.
- Worked on **BTG Content**, the largest **Wealth Management (WM)** platform at BTG Pactual, serving both high-net-worth individuals and retail investors.
- The platform had over **30,000 daily users**, and I was involved from MVP development to full-scale maintenance and expansion.

Tools and skills: Angular, TypeScript, DynamoDB, AuroraSQL, PostgreSQL, Front-End Development, Investment Platform, Performance Optimization, Real-Time Notifications, AWS Lambda, Microservices, Version Migrations, CI/CD (Jenkins & Azure Pipelines), REST API Integration, C#, .NET, TDD, DDD

Full Stack Developer @ Destec | Marketing fintech

Jan.20-Mar.22

- Developed and maintained two CRM platforms using Angular for front-end and Spring Boot (Java) for back-end.
- The platforms were designed to handle hundreds of active users daily, optimizing business operations for marketing and consulting firms.
- Deployed applications on AWS, utilizing EC2 and S3 for hosting and storage solutions.

Tools and skills: Angular, MongoDB, Spring Boot, RESTful APIs, Google APIs, Meta APIs, AWS EC2, AWS S3, CI/CD Pipelines, Vue

Education

Bachelor Systems Analysis and Development @ IESB, Brazil

Jan.20-Dec.22

- IESB holds an IGC score of 4 and is ranked 4th among Higher Education Institutions (HEIs) in Brasília.
- Completed a rigorous Systems Analysis and Development program, covering software engineering, database management, and cloud computing.

Certificates @ Self Learning

Jan.18-today

- Software Architecture and Microservices
- Full-Stack Development with Angular and .NET
- REST API Development with Java and Spring Boot

Skills

Languages: Portuguese (native), English (Intermediate)

Cloud computing: AWS S3, AWS EC2, AWS EKS, GCP, Azure Pipelines, Firebase, AWS SQS, AWS SNS ...

Development tools: Git, Bash, Docker
