ABOUT ME

I'm a curious and driven individual who loves challenges, with strong experience in the financial market and expertise in C# .NET, solving complex problems with scalable solutions while remaining adaptable to different technology stacks.

SKILLS

The technologies I have worked with:

- C# .Net, Angular, Kotlin, Node
- CI/CD, Git, Kubernetes
- API RESTful, SOLID, Clean Code, Microservices Architecture
- Agile Practices (Scrum / Kanban)

EXPERIENCE

BTG Pactual- *Software Engineer*

03/2022 - PRESENT

- Maintenance and management of the Front-end for an investment platform (Content BTG).
- CI/CD processes using Jenkins and Azure Pipelines.
- Working on microservices in the Back-end with Java and Spring Boot.
- Providing assistance to various internal teams and educational platforms.
- Developing new features to improve financial and internal systems (CROS), using C# with .NET for back-end services and API development.
- Primarily focused on AWS technologies, including Lambda and EKS for serverless computing.
- Using Amazon SNS for real-time notifications and SQS for asynchronous message queuing, ensuring reliable integration, fault tolerance, and scalability in the system.
- Ensuring the seamless operation and maintenance of over 40 million daily integrations.

Destec - *Full-Stack Engineer and Co Founder.*

01/2019 - 08/2021

- Build marketing and consulting platforms in Angular and VueJs.
- Had experience working with Google and Meta APIs.
- Have dealt with 2 big clients and gained experience with being as Java developer making a API Rest using Spring Boot.

CERTIFICATIONS

03/2020

Master Angular - *Maximilian Schwarzmüller*

01/2023

Microservices in practice (Java & Spring Boot) - *Alura*

03/2022 - 06/2024

Analyze Systems Development - *IESB*

03/2023

Clean Architecture Essencial - ASP .NET Core com C# - *Jose Carlos Macoratti*
